Remote Control online device by remote;

Offline Device is offline and it is out of control. Please check the network connection.

Instruction of LED indicatoror

- **Blue indicator flashes quickly:**
  Waiting for configuration (device is under factory state or reset). Under this circumstance, you can tap 'Add device' in APP and it guides you to finish the configuration.
- **Blue indicator flashes slowly:**
  Network is down, power supply is down and then recovers, or during the configuration process.
- **White indicator flashes once:**
  Transmitting infrared signal (it occurs when learning the infrared codes or controlling appliance).

Note :

- Do not use non-ASCII characters in Wi-Fi name or password. It may cause configuration failure. The device supports Wi-Fi of 2.4G 802.11 b/g/n only.
- Please place the device on open place. Please point remote to the top of the device during learning and we suggest the distance is less than 1m.
- Please configure the device according the user guide. If you encounter problems, please contact our authorized distributors or our support team.
- All the technical details are subjected to the actual product performance.
